

Add-one electronic modules and complete RapidBike Easy / Evo / Racing kits

DESCRIPTION	PRICE	NOTES
RapidBike EASY kit - Stock lambda sensor signal modulation with wiring harness -----	€ 150,00	Complete kit inclusive of adjustable RapidBike EASY module (new K27RBEASY2) and connecting wiring specific for required application. No need for software calibration, all operations are performed with trimmers installed on the module rear side - sticker and manual included
RapidBike EVO kit - Fuel management with stock lambda signal modulation and self-adaptive feature Kit inclusive of wiring for applications up to 4 injectors -----	€ 420,00	Complete kit inclusive of programmable RapidBike EVO module, connecting wiring specific for required application, and interfacing USB cable to connect the module to a PC - sticker and manual included
Kit inclusive of wiring for applications up to 8 injectors or expensive cost -----	€ 490,00	
RapidBike RACING kit - Fuel and ignition management with stock lambda signal modulation, self-adaptive feature and engine braking management Kit inclusive of wiring for applications up to 4 injectors -----	€ 575,00	Complete kit inclusive of programmable RapidBike RACING module, connecting wiring specific for required application, and interfacing USB cable to connect the module to a PC - sticker and manual included
Kit inclusive of wiring for applications up to 8 injectors or expensive cost -----	€ 645,00	
RapidBike Evo Exclusive kit for small engine size - check for specific bike model	€ 300,00	Complete kit inclusive of Rapid Bike EVO / RACING module already programmed for a specific bike model, with connecting wiring harness - sticker and manual included NB: USB cable to connect RB module to a PC available only for separate purchase Rapid Bike EVO/RACING module firmware is blocked and re-installation from one bike model to a different one is NO LONGER POSSIBLE
RapidBike Evo Exclusive kit for higher engine size - check for specific bike model	€ 350,00	
RapidBike Racing Exclusive kit for small engine size - check for specific bike model	€ 400,00	
RapidBike Racing Exclusive kit for higher engine size - check for specific bike model	€ 450,00	

Parts and Accessories

CODE	DESCRIPTION	PRICE	NOTES
Modules			
K27RBEASY2	RapidBike EASY module (without wiring harness)	€ 100,00	RapidBike EASY module
K27RBEVO	RapidBike EVO module (without wiring harness)	€ 275,00	RapidBike EVO module, inclusive of interfacing USB cable for connection to a PC (item F27ADMUSB2)
K27RB RACING	RapidBike RACING module (without wiring harness)	€ 430,00	RapidBike RACING module, inclusive of interfacing USB cable for connection to a PC (item F27ADMUSB2)
Wirings			
Refer to application list	Wiring harness for EASY	€ 50,00	Waterproof wiring harness for RapidBike EASY (specific for bike model)
Refer to application list	Wiring harness for EVO/RACING - up to 4 injectors	€ 145,00	Waterproof wiring harness specific for RapidBike EVO/RACING modules
Refer to application list	Wiring harness for EVO/RACING - up to 8 injectors or expensive cost	€ 215,00	wiring harness is compatible with both, RapidBike EVO and RACING modules
Youtube			
K27YOUTUNE	Calibration device managing in real time features of RapidBike Evo / Racing modules, and for activating new functions	€ 265,00	EVO module: AFR and QS management / activation of RPM Cruise control and Engine Brake management RACING module: same as above / activation and management of TRACTION and LAUNCH Control
Accessories			
F27ADMUSB2	FTDI-USB interfacing to connect EVO/RACING modules to a PC	€ 60,00	Included in RapidBike EVO/RACING kit
F27ADBTOOTH2	BlueBike adapter - Bluetooth interface for wireless connection to PC	€ 90,00	Requiring RaceTime APP to set an Android smartphone as a real time data recording device
F27ADORI-ER	By-pass adapter	€ 40,00	Replacing EVO/RACING modules to re-set the bike stock configuration without removing RB wiring harness
Handlebar Switches			
F27SWMAPS-ER	Handlebar mounted switch	€ 30,00	Allowing shifting between two different sets: injection map, self-adaptive target for RB Evo and Racing RPM and speed limiters, ignition map and engine braking control for RB Racing
F27SWMAPS2-ER	Handlebar mounted switch - matt black anodized aluminum	€ 90,00	
F27-SW-PIT2	Pit-Lane limiter switch (only for RapidBike Racing)	€ 30,00	
Quick shifter			
K27-SW-GEAR	Load cell sensor with self-learning feature for quick shifting operations	€ 250,00	Universal accessory ONLY for UP-SHIFTING - Length mm. 45; diameter mm. 14
K27-BLIP-"code"	UP/DOWN Shift Assist (Blipper)	€ 350,00	Refer to Blipper Applications List for detailed part number - requiring installation of EVO/RACING module
C27SHIFTRD-A	Rod type A released in anodized aluminium - Refer to application list	€ 20,00	M6 female (right) - female (left) shift rod
C27SHIFTRD-B	Rod type B released in anodized aluminium - Refer to application list	€ 20,00	M6 male (right) - male (left) shift rod
C27SHIFTRD-C	Rod type C released in anodized aluminium - Refer to application list	€ 20,00	M6 male (right) - female (left) shift rod
C27SHIFTRD-D	Rod type D released in anodized aluminium - Refer to application list	€ 20,00	M8 female (right) - M6 male (left) shift rod
My Tuning Bike: CAN-BUS autotuning module for RapidBike EVO/RACING			
K27MYTB-01			Wide band oxygen sensor not included (C27SONDA2)
(K27MYTB-02) (K27MYTB-03) (K27MYTB-04)	MY TUNING BIKE - CAN-BUS interface kit for real time injection re-mapping based on a specific air/fuel target	€ 169,00	In case of additional My Tuning Bike modules installed on the same bike, the codes to order are: K27MYTB-02 (second module), K27MYTB-03 (third module), K27MYTB-04 (fourth module)
C27SONDA2	BOSCH LSU 4.9 017 025 wide band oxygen sensor - NO DISCOUNT GRANTED	€ 80,00	To be used in combination with My Tuning Bike - it is not meant to replace stock lambda sensor

General terms

Standard delivery terms: Ex Works by Express Courier. All deliveries having a value above 500 Euro are guaranteed against losses with a charge up to 1% applied to the total value showing in the invoice.
Prices indicated do not include VAT sales tax. DIMSPORT Srl maintains the right to cancel and/or modify this price list without any prior notice.
